

School of Hospital Administration

It's a beautiful thing when a career and
a passion come together!

About Hospital Administration

Hospital administration course is a fundamental and rapidly developing field of study, especially in Kerala. Kerala's healthcare sector is known for its extensive network and high-quality services. This specialization focuses on the operation of hospitals and healthcare buildings on a day-to-day level through all aspects such as financial management and patient's care arrangements.

This course is developed according to the requirements of the healthcare sector to allow you to grow and develop as a healthcare manager. Thus, students are equipped with the necessary skills and knowledge to excel in their profession. The Hospital Administration course at our academy provides an in-depth exploration of the complex world of healthcare industry management and prepares students well for their careers in this important field.

WE are dealing with two courses in the field of Hospital Administration. The first one is two year Master's program in Hospital Administration. The second one is PG Diploma in Hospital Administration which lasts only One year.

Master of Hospital Administration (MHA)

Duration: 2 year / 4 Semesters

The Master of Hospital Administration (MHA) is a postgraduate degree program focused on healthcare management. On the other hand, the MBA is a two-year postgraduate program pursued by students interested in managing healthcare facilities.

The goal of these programs is to cultivate a group of professional managers for the rapidly expanding hospital sector. Hospitals are becoming increasingly complex

technical environment that require skilled individuals to manage efficiently while maintaining a caring and humane atmosphere for patients. This has led to the emergence of a new type of healthcare professional - the hospital manager.

The MHA program equips students for leadership roles in the hospital sector by providing training in planning, operational management, and project management of hospitals, including managerial aspects of clinical and support services. Hospital managers are responsible for overseeing various departments in large hospitals, as well as planning and implementing new services and facilities. Graduates have found employment in leading corporate and trust-run hospitals nationwide, with job opportunities emerging in hospital consultancy firms, health care industry and insurance sector.

PG Diploma in Hospital Administration

Duration: One year / 2 Semesters

The PG Diploma in Hospital Administration is a specialized postgraduate program that aims to provide students with the necessary knowledge and skills to efficiently oversee healthcare facilities. This program caters to the specific requirements of mid-level administrators working in hospitals or healthcare settings.

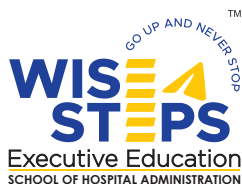

Encompassing various subjects related to healthcare management and administration, this extensive program offers learners a professional qualification and a deeper understanding of managerial responsibilities.

This program is ideal for graduates who aspire to pursue a career in hospital and health care administration. Additionally, it will greatly benefit individuals currently holding senior positions in hospital administration.
